

Automate Updating Mailings And List Creation

Getting professionals to update their mailing lists or decide who should be invited to a seminar can be frustrating and sometimes overwhelming for everyone concerned. In many firms each professional is sent a paper list of all their contacts every time a mailing is done (such as the annual holiday card debacle).

With ContactEase's Mailing List Manager, professionals or their secretaries can easily update and select contacts to be on a mailing or event list in a browser window, saving great amounts of time and avoiding paperwork. They just click on those that should get the holiday card, update their industry, select a holiday gift, or see what their status is for the golf outing. An unlimited number of different events and/or mailings can be tracked with this system, allowing for each user to review their own mailing list.

Company	Contact	RSVP	Tea Choice	Invited
